Jamie holds a Juris Doctor from Catholic University and a B.A. from Penn State. With a background in law and manufacturing, he entered the education arena in 1988 as a founding member of the Iowa Business Roundtable. He was, at the time, president of the Great Midwestern Ice Cream Company, named by *People* magazine as the "Best Ice Cream in America!" In 1990, he changed careers to become the Roundtable's Executive Director. Once a harsh critic, he is now an articulate champion of America's public schools. Over the last twenty years he has worked with educators, parents, and community leaders to remove the obstacles to student success. Jamie is the author of the highly acclaimed book, *Schools Cannot Do It Alone*, proclaimed by the American School Board Journal as one of the "top ten books of the year." In 2012, he was named the *Friend of Texas Public Schools* and the *Friend of Ohio Public*

Education. He is the 2010 recipient of the *Learning and Liberty* award presented by the National School Public Relations Association for his efforts to build trust and support for public schools. Adam Saenz, Ph.D.

Dr. Saenz is a beneficiary of two teachers who took the time to help him understand his true identity and believe that he could be something great. His story begins like a lot of stories of troubled kids—drugs, jail, discipline problem, at school and on and on down the spiral to what could have been a very bad end. Instead, he was reminded that he had potential, and used that encouragement to ending the trajectory of his life forever. He would eventually earn his PhD from Texas A&M and study at Harvard and Oxford. He credits his success to two of his high school English teachers, Mrs. Ealey and Mrs. Roberts, who literally changed his life and the lives of everyone Dr. Saenz has touched the lives of many students in a positive way through the years.
